

Digitalization and arbitration – opportunities for business

Paris 16 December 2019

Digitalization and technical innovations are developing fast, also in the legal industry. Addressing the complexities of international arbitral proceedings through secure communications and digitalization has been in demand by legal professionals for several years. In parallel, GDPR has increased the focus on data privacy also in arbitration.

The speakers will provide insights into the trends in international dispute resolution on digitalization, automation and GDPR as well as an update on the SCC Platform, a case management platform, providing secure communication from request to award among the participants of SCC arbitrations.

The event is co-hosted by the SCC and Dentons.

Who should attend?

- In-house counsel of international business
- Law firms advising in international transactions
- Dispute resolution specialists
- Legal tech advisors or specialists

Speakers

**Bart
Legum**

Bart is an international arbitrator and thought leader with 30 years of experience within international arbitration and investment disputes. He sits on the SCC board and on the ICSID roster of conciliators for investment disputes. He is an early adopter of technology and avid user of digital tools in his own arbitration practice.

**Kathleen
Paisley**

Kathleen is an international arbitrator based in Europe and the US, with, among other things, more than 30 years of experience in technology disputes and data protection. She is a leading expert on both data protection and cybersecurity in arbitration, and is co-chair of the ICCA-IBA joint task force on data protection and a member of the cybersecurity task force.

**Ann
Björk
&
Helena
Hallgarn**

Ann and Helena are founders of Virtual Intelligence VQ, an innovative entrepreneurial company focusing on digitalisation of the legal sector. They are pioneers in legal tech, being able to combine the practice of law with innovation and IT skills, and have developed several innovative legal solutions such as VQ Legal, and the AI tool TrueAgreement. In 2017 VQ won the Swedish Legal Innovation Award for its pioneering impact on the legal market.

**Lise
Alm**

Lise heads business development at the SCC including innovation, digitalization and the SCC Platform. With an M&A background both as external counsel and in-house at Spotify, and a business background heading the business department at other tech start-ups, she brings new perspectives to the arbitration world.
